

## Export Perimeter Security Products Overview

[exmeshsecurity.co.uk](http://exmeshsecurity.co.uk)

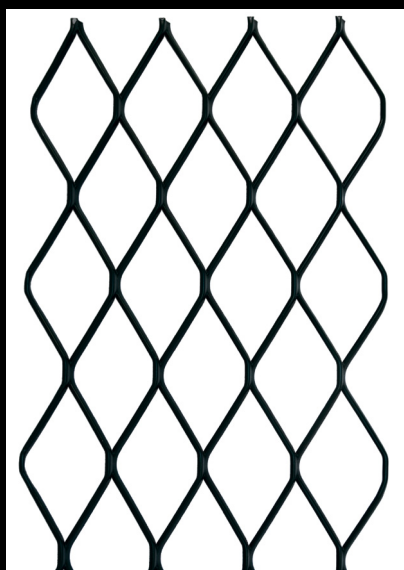

## Our Product Range

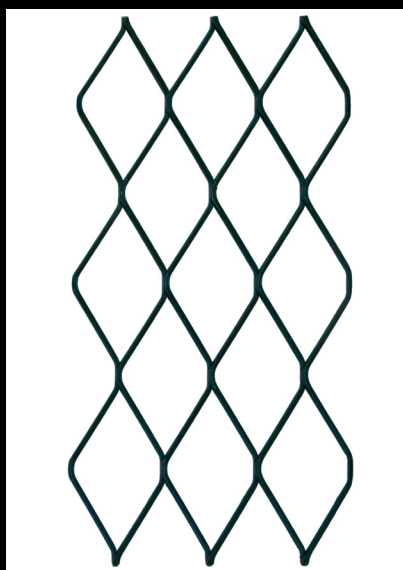

ExMesh™ metal mesh security products are manufactured in the UK by The Expanded Metal Company, an innovator of expanded metal mesh products, and are exported worldwide.

- ◆ The ExMesh™ product range offers comprehensive security solutions which includes high security fencing systems, security gates and additional metal mesh security solutions such as anti climb measures and cages.
- ◆ Made in the UK, our certified fencing and physical barriers can be used in a wide range of internal and external environments.
- ◆ ExMesh™ offers certified security physical security solutions to LPS 1175 SR3 which can be used in target hardening to reinforce and improve existing security measures.
- ◆ Supplied as complete systems with a range of gates and toppings to complement them.
- ◆ Can be used on undulating ground and slopes without stepping.
- ◆ Our systems can be completely customised to your specifications and we offer a range of finishes including powder coating in a range of colours.

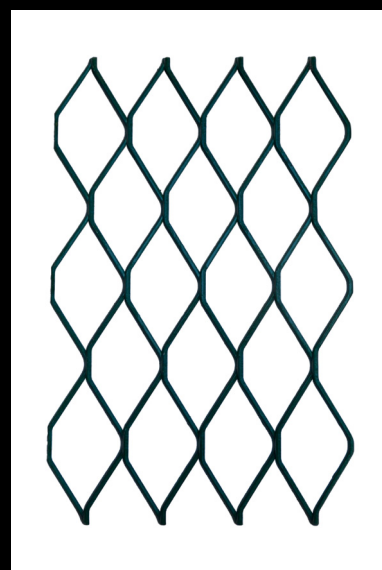

### Mesh Options

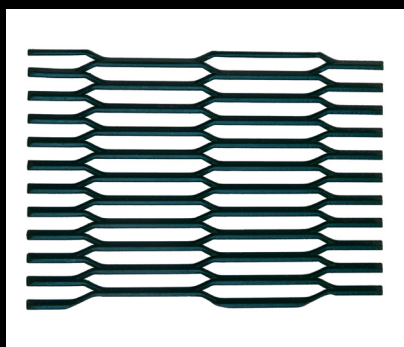

Mesh Ref: 4095  
101.60 x 50.80 x 4.5 x 3.00  
4.90KG/M2 white weight

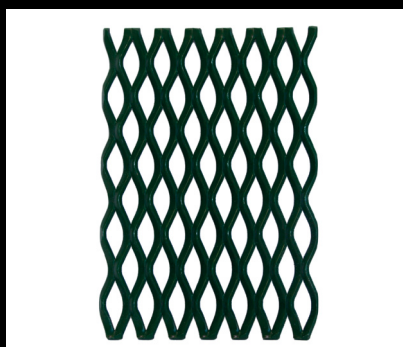

Mesh Ref: 4097  
101.60 x 50.80 x 3.35 x 3.00  
3.42KG/M2 white weight

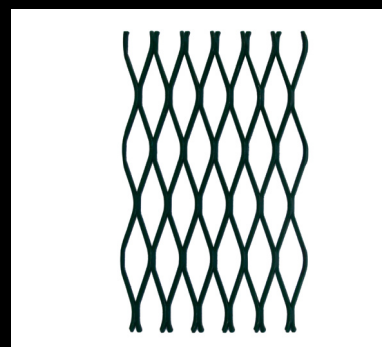

Mesh Ref: 3396  
85.73 x 40.64 x 3.18 x 3.00  
4.03KG/M2 white weight

Mesh Ref: 7732  
137.16 x 13.25 x 2.87 x 3.00  
11.21KG/M2 white weight

Mesh Ref: 1576  
38.10 x 16.93 x 4.75 x 3.00  
14.52KG/M2 white weight

Mesh Ref: 2089  
50.80 x 22.58 x 3.12 x 3.00  
7.17KG/M2 white weight

## ExMesh™ ProtEx 1

ExMesh™ ProtEx 1 security fencing offers a robust, certified perimeter security solution – and is used to protect facilities such as warehouses, telecoms infrastructure, retail sites and government infrastructure.

This British-made mesh fencing product has achieved Loss Prevention Certification Board (LPCB) 1175 SR1: Issue 8\* certification and as such is designed to provide resistance against attacks with tools such as cable cutters and pliers.

## ExMesh™ ProtEx 2

The ExMesh™ ProtEx 2 consists of a tough and durable 1576 mesh, delivering insurance approved superior perimeter defence. It also features a unique post stringer and mesh design to deter attackers.

Our ProtEx 2 is hot dipped galvanised with the option of Powder Coating in a variety of colours. This system achieves BRE/LPCB SR2(B3) rating to LPS 1175, Issue 8.

## ExMesh™ ProtEx 3

The ExMesh™ ProtEx 3 security system is one of the few high security fencing systems in the UK to gain Loss Prevention Certification Board (LPCB) accreditation under the standard LPS 1175: Issue 8. Available in standard 2.4m and 3m heights and incorporates a double skinned 1576 mesh system for ultimate security.

Our ProtEx 3 security system is hot dipped galvanised with the option of powder coating in a range of colours. This system achieves BRE/LPCB SR3 (C5) rating to LPS 1175, Issue 8.

## ExMesh™ Securilath™

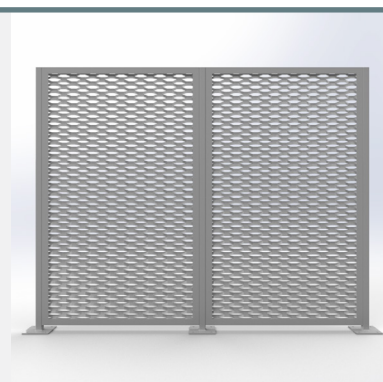

Securilath™ security mesh is a discreet method to target harden critical areas. It significantly delays determined intruders from creating an aperture large enough to gain entry. It can be situated within internal and external walls, ceilings, roofs and windows and can be easily fitted during construction or retro-fit

LPCB tested and accredited at LPS 1175 SR1, SR2 and SR3.

## ExMesh™ Architectural Panels

Strong, secure and durable, our architectural metal mesh boundary panels can be used for demarcation and aesthetics in multiple environments and are ideal for screening unsightly areas and equipment. Virtually maintenance-free, the panels are very easy to install and are popular as boundary fencing, where a new or replacement solution is needed quickly. We also offer a range of finishings to suit your requirements with gates and fencing options also available.

## ExMesh™ Gates

Our range of gates provide a match to all of our perimeter fencing systems, and are tested to the same security levels, where appropriate. They are available in single or double leaf opening sizes, either inwards or out over to suit your specific requirements and come with a variety of locking options.

## ExMesh™ AVSB and Raptor

Highly effective perimeter toppings which are low maintenance. Our anti-climb products are mountable to any surface through specially designed brackets and fixings.
